SRI GVG VISALAKSHI COLLEGE FOR WOMEN

PROBLEM STATEMENT

Free and open source software made openly available for everyone in the field of education under educational enterprise.

ISSUES FACED

- **Difficult to maintain notes properly**

- **Extracting student, faculty or admin data from paper records**

- **Difficulty in information exchange between different departments of educational institutions**

- **Up-to-date and error-free record maintenance or student and staff becomes difficult**

- **Inaccuracy in financial records such as salary, fees, and expenses of institute**

- **Old records cannot be accessed easily and quickly**

- **Much time spent on time-table scheduling and management or proxies**
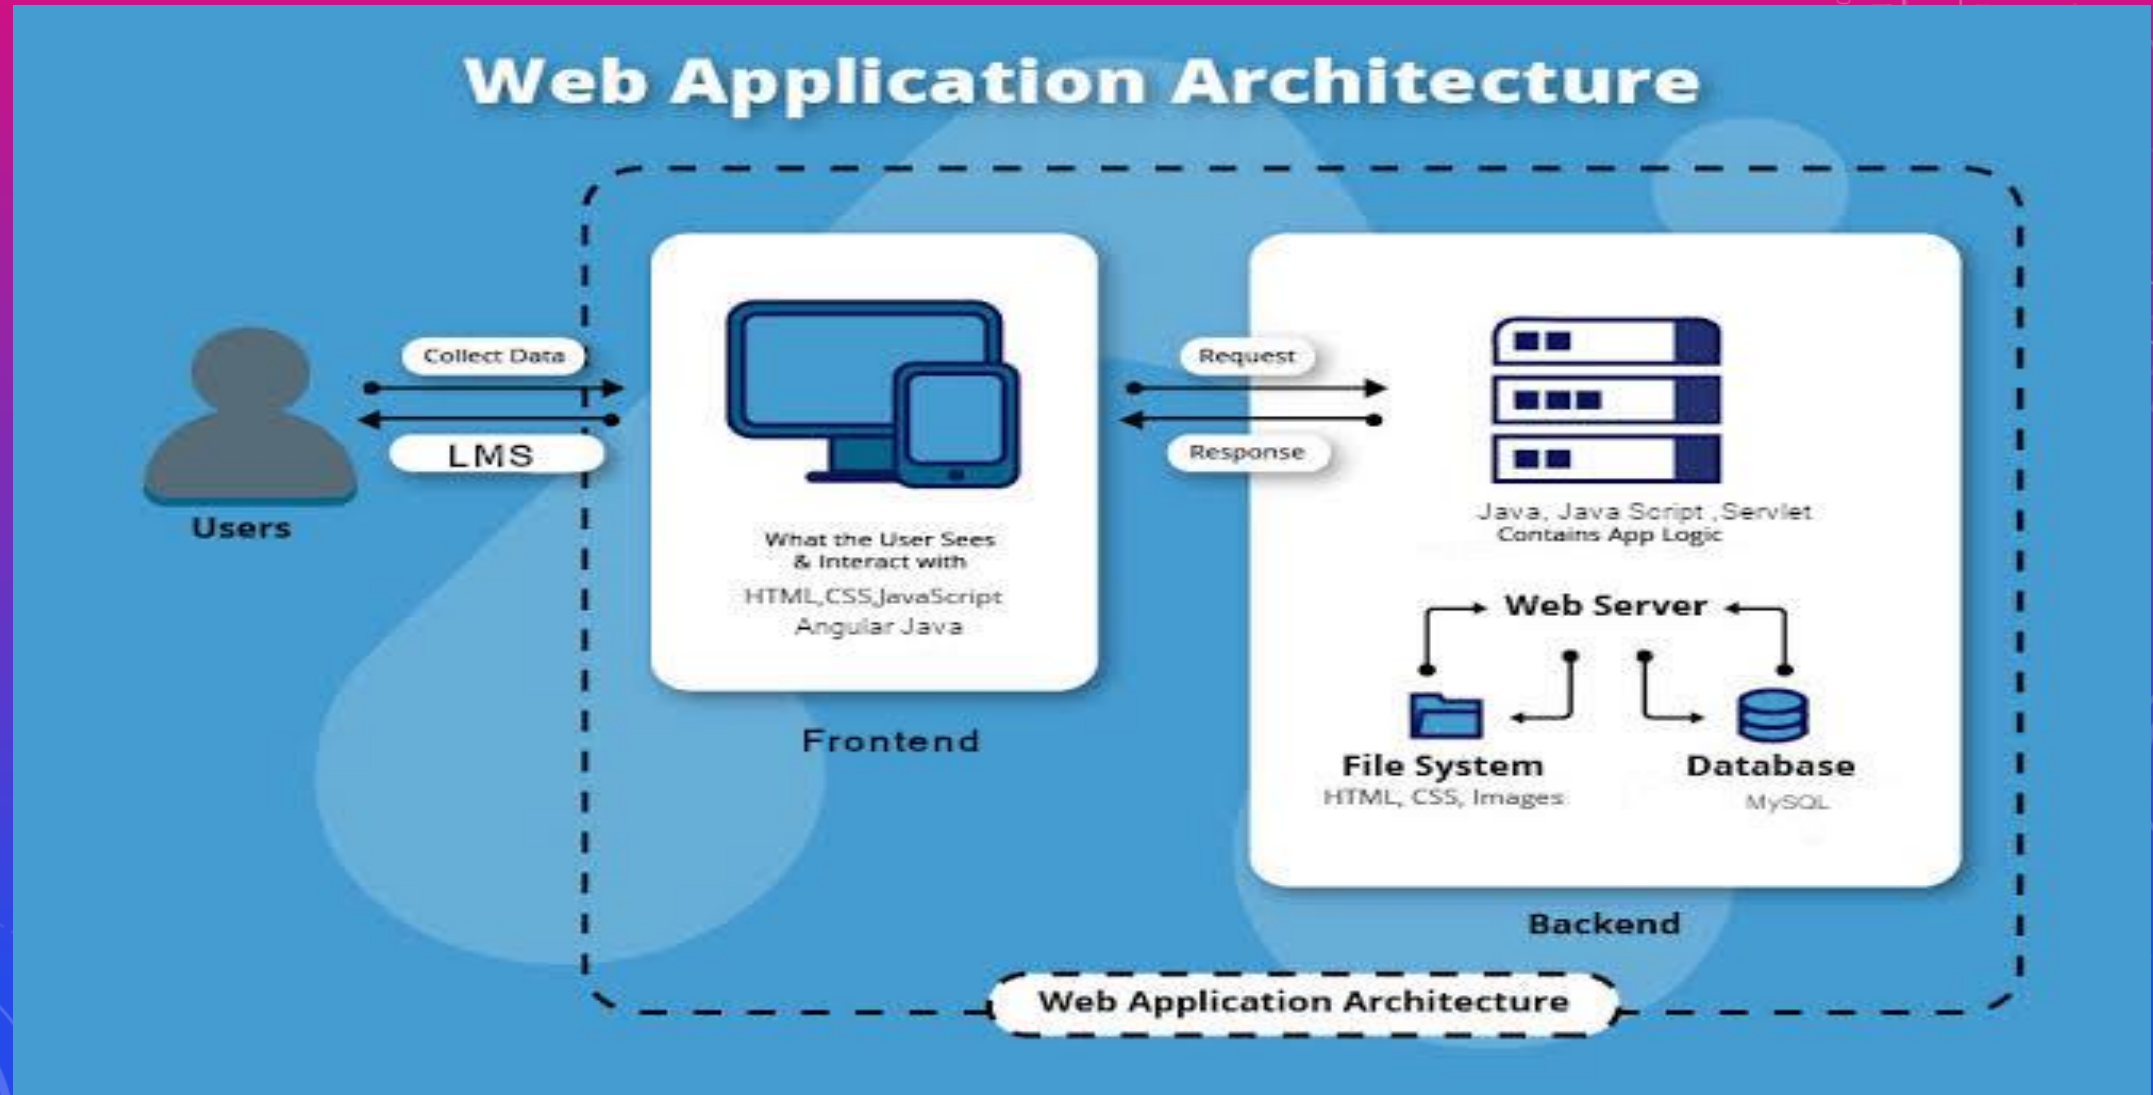

OUR SOLUTION

A Learners Management System (LMS) for Education ERP Software helps educational institutes, like school, colleges, and university, with some common issues faced by their staff.

BENEFITS

- Visually impaired people can easily access the course

- Database of students and faculties can be maintained easily and data's can be retrieved quickly

- Anybody can learn whenever they find time as options for maintaining notes is available

- Students who are unable to continue their studies because of their financial issues doesn't need to quit their studies as all the courses are available here at free of cost

- Illiteracy rate decreases

- Married housewives can continue their education from home

- People money can be saved which is spent on courses of high cost
